Point In Time Summary for AL-501 - Mobile City & County/Baldwin County CoC

Methodology for AL-501 - Mobile City & County/Baldwin County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

| | |
|------------------------|-------------|
| HMIS Data | 83% |
| Provider-level surveys | 0% |
| Client-level surveys | 17% |
| Observation | 0% |
| Other | 0% |
| Total | 100% |

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Blitz count of persons in shelters (i.e., count occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

Point In Time Methodology for AL-501 - Mobile City & County/Baldwin County CoC

- HMIS Data
- Client-level surveys

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

- All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

- Change in transitional housing capacity

Please provide a brief description of these specific factors (500 word limit):

TH Capacity: The CoC received funding through the 2018 HUD CoC funding cycle for a new joint component TH/ RRRH project serving persons recently released from a correctional facility. TH is the only sector of the 2019 PIT realizing a year over year increase. New inventory, along with improved utilization across TH renewal projects (HIC), are expected to be the primary motivators for an increase in the TH sheltered population.

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

- "Night of the count" - complete census
- "Night of the count" - known locations

- HMIS

- Service-based count

7a. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas?

No

7c. In areas that were canvassed, did the CoC count all unsheltered people in those areas or a sample of people?

- All people encountered during the count

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Point In Time Methodology for AL-501 - Mobile City & County/Baldwin County CoC

- Blitz count of unsheltered people (i.e., canvassing of different areas occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

- Surveys/interviews of people identified as unsheltered on the night of the PIT count
- Surveys/interviews of people identified as unsheltered on the night of the count, but completed at a later date
- Surveys/interviews of people identified within 7 days following the night of the PIT count night who may have been unsheltered on the night of the PIT count (e.g., "service-based" surveys at locations where people who are homeless go for assistance)

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

- All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Blitz count of unsheltered people (i.e., sheltered and unsheltered counts occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below

- Impact of coordinated entry
- Weather
- Other:

Please provide a brief description of these specific factors (500 word limit):

Development, see notes below.

-As referenced in the previous note regarding changes to the Sheltered Count, the 2019 Count showed a higher utilization of TH services, and increases in utilization across permanent housing projects reported in the 2019 HIC. These factors are understood to be related to the reduction in unsheltered persons.

-The AL501 CoC is committed to prioritizing chronically homeless persons and unsheltered persons/families through the Coordinated Entry. As such, these households are targeted for referral to supportive services and assistance, including the RRH programs and Permanent Housing programs.

-Development continues to encroach upon wooded areas throughout the CoC's coverage area, with rates of development in Baldwin Co. reaching unprecedented levels. Well established encampments throughout newly developed areas continue to be disbanded, resulting in diminished counts of unsheltered persons in areas historically considered "hot spots" for this population. The extent to which the former occupants of these encampments continue to reside in the CoC in an unsheltered environment, have relocated outside the CoC's geographic area, or are otherwise no longer unsheltered is not fully known.

-There were extreme weather warnings the day of PIT, with heavy rains and flooding risks throughout the day. Although the weather improved significantly by the time volunteers began canvassing that night, there is an expectation this may have prompted some unsheltered persons to move for safety, resulting in movement to locations less accessible/ visible to surveyors (i.e. abandoned homes/buildings).

Point In Time Methodology for AL-501 - Mobile City & County/Baldwin County CoC
